Jaime Malet  
Chairman

*90 Aniversario*  
1917-2007

Madrid, 11th of June 2007

On behalf of the American Chamber of Commerce in Spain (AmCham Spain) and the US business community in Spain, I would like to convey that we fully endorse the International Technology Forum 2007 which will take place in Barcelona, Spain, on November 28-29th.

Companies from the Information and Communications Technologies and the Life Sciences sectors attending the ITF 2007 will have an excellent opportunity to exchange information, ideas and to develop new business opportunities and ties.

The American Chamber of Commerce in Spain, founded in 1917 and affiliated since then with the US Chamber of Commerce in Washington, D.C., is committed to promoting and strengthening economic and business ties between Spain and the United States and therefore will be offering its support to the International Technology Forum 2007, a prestigious international event that will be a great benefit to Barcelona and Spain.

AmCham Spain will do its utmost to ensure the success of the ITF Forum 2007 and very much looks forward to its celebration in November.

Sincerely,

Jaime Malet
