Miquel Valls i Maseda
PRESIDENT

On behalf of the Barcelona Chamber of Commerce, Industry and Navigation, I want to express our support for the International Technology Forum 2007, which will be held in our city. The Casa Llotja de Mar, the headquarters of the Barcelona Chamber of Commerce is the perfect and well-deserved venue for celebrating this unique event.

The Barcelona Chamber of Commerce has always promoted and supported initiatives encouraging companies and entrepreneurs to establish cooperation links and enhancing their development and economic growth.

We believe that the ITF 2007 will enable the different agents participating in the event to create networks and will be a magnificent platform to show the progress that is being made within the Information and Communication Technologies (ITC) and the Life Sciences sectors.

The Casa Llotja de Mar has historically been the framework for many types of commercial activities. With ITF 2007, Casa Llotja de Mar will become a market to exchange knowledge, experiences and projects where entrepreneurs and investors will have the opportunity to share their realities and discuss new opportunities.

With this purpose in mind, I am pleased to welcome all foreign speakers and attendees and I hope is that, during their stay in Barcelona, they will be able to benefit from this entrepreneurial and innovative environment that has continually defined our economic and business network.

We are confident that once again we will all succeed in making this meeting a high-quality event of great interest.

Sincerely,
